**From the Minnesota Fusion Center:**

During our weekly analyst meeting today, our liaison partner with MN Pipeline Safety stated they are seeing more protesting and calls for boycotts surrounding pipeline activity.

Information indicates that a major non-profit and many smaller non-profit organizations are continuing to call for protesting at/near or boycotting financial institutions and/or companies that support any portion of the pipeline projects, to include the Enbridge Line 3 project occurring in northern Minnesota. Due to the historical context of this type of activity, this may include US Bank properties and affiliated entities, which include US Bank Stadium.
